Teaching Assistant: Lucie Lu - FINE 448 : Financial Derivatives - Lecture Section: 1 CRN: 890

Term : Winter 2018

Instructor(s) : Patrick Augustin

Comments for question 2 : Overall, this Teaching Assistant is an excellent teacher.

1. Submission #1481419: Yiliu Lu - Lucie provided consistent and excellent support throughout the whole semester. She was enthusiastic and dedicated and was always keen in her responses. She answered emails quickly and always in detail. Overall, Lucie has been the best TA I have had over my 4 years at Desautels.
2. Submission #1486958: Yiliu Lu - She didn't teach very much. During tutorials, she just quickly went through the answers and wrote them on the board with little interaction with students. She could have done a better job at making sure students understood what she was doing at all times. She really has to focus not on showing the answers, but going very slowly, and making sure everyone is engaged. Also, not very helpful in email on questions for the assignment. I understand not wanting to give the answer away, but there was little regard for even giving a hint or explaining the assignment questions in terms of clarifications. It was demoralizing. She seems like a lovely person, but she didn't help make this class manageable.

1. Submission #1483920: Yiliu Lu - very hard to understand due to thick foreign accent.

Comments for question 2 : Overall, this Teaching Assistant is an excellent teacher.

1. Submission #1459721: Yiliu Lu - Lucie is always prepared for tutorials and she explains things in a clear manner. I have found her tutorials to be very useful.
2. Submission #1481480: Yiliu Lu - it's usually hard to see the writing on the board, don't write so low down and don't always stand in front of your writing
3. Submission #1484580: Yiliu Lu - It is evident that Lucie invested a lot of effort into helping students. She was very patient and understanding and took the time to answer numerous emails and questions in-person during appointments. She was a great help for the assignments as she understood my concerns from the perspective of a student. I really appreciate that she went above and beyond to make sure that my concerns were addressed.
